MINERAL SOURCING STATEMENT

January 1, 2013

Dear valued customers,

In August 2012, the United States Securities and Exchange Commission (the "SEC") issued final rules implementing the provisions of Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"). Section 1502 of the Dodd-Frank Act imposes new reporting requirements on companies who manufacture, on contract to manufacture, products that use Conflict Minerals, which is defined as cassiterite (from which tin is derived), columbite-tantalite (coltan, the mineral from which tantalum is extracted), gold, wolframite (from which tungsten is derived), and any other minerals determined by the Secretary of State to be financing the conflict in the Democratic Republic of Congo and its adjoining countries (the "DRC countries").

Stellar Technical Products has conducted an inquiry with its suppliers to determine that they do not use any Conflict Minerals in manufacturing their products.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

Alan Sherry
President
